WATER REPORT

Shields, Cheryl

Total gallons pumped for the month of March was 1,930,200.

The average daily usage for the month was 62,260 gallons.

Have been working on spring cleanup around the pump house.

Replaced the sump pump in well #2 vaults, the old one would not shut off.

Had Pleasant Valley Electric come in and update the new time clocks for the line pumps for the new daylight savings time; they needed to replace the time chip on the circuit board.

The Supervisor has a copy of the report that Moody and Associates gave us at the finish of the well cleaning. If anybody would like to see the video of the well before and after cleaning, give Mark Conner a call. He has it in both DVD and VHS format.

HIGHWAY REPORT

Sellen, Dale

In March, winter seemed to be making up for its late start. The winds we had really kept us on the move.

Through the month, we spread 324 ton of mix on our State roads and 200 ton on our Town and County roads.

We have been replacing and repairing parts on the trucks and plow equipment since the last storm ended.

Mark and I (Frank Sellen) went to Harrisville for the day to go over the specifications on the dump box and plow equipment on the new truck. The dump box for this truck is heavier and taller than the last one. I think it should be more user friendly for dumping. We also went over some issues we had with hydraulic line placement and wiring. The truck is due to be pulled in for service any time now and should be ready for spring work.

Everyone has been sanding and painting on the truck boxes, plows, sanders and wings. Mark has been welding pieces in the floor and gate latches on #9. We did manage to get paint back on most things between the snow.

Al and Jake have been filling ruts in the shoulders and holes in the roads with gravel and patch.
